Dear Mr. McMurtrie and SFAMI Board Members,

Brown Mackie College Miami is grateful for your dedication and efforts to help our future Biomed students' success. The success not only depend on our efforts as professionals to mentor this future generation of Biomed, but the success also comes within the students themselves. For this reason, every department in our school has a student club composed of current active students at Brown Mackie College Miami.

Due to previous issues with the former group, I have restructured the Student Club to reflect this concept mentioned above. The new Biomed Student Club composition was established June 18th, 2015. Within less than 24 hrs, the activity within the club has been very successful. In a separate email, you will receive a list of plans that the group is currently working on.

This letter is also an intent to introduce you to the new members who are excited to work on ideas and implementation of mentorships by the SFAMI professionals. Their structure of members and titles were decided to mirror SFAMI:

Roberto Diestro- Chair (robertodiestro@stu.brownmackie.edu)
Allan Hunte- Co-Chair (bibuk79@gmail.com)
Bibu Koshy- Secretary/Treasurer (allan.r.huntejr@gmail.com)

I will be in contact to update you with developments of this new group. In the meantime, please don't hesitate to contact me if you have any questions.

Sincerely,

Karin Hsiao
